Apps

We have developed a number of Apps specifically designed to meet the needs of the hospitality industry.

These include:

- Online Ordering Apps
- Order & Pay at Table Apps

Smartphone Apps are fast becoming essential tools for hospitality businesses. To enable our customers to stay relevant now and in the future, we are developing new customer-facing apps to enhance our customers' experiences.

These include order at table and pay at table apps that enable your customer to order a new round of drinks directly from their smartphone plus the ability to scan a QR code and even split or settle the bill without having to wait for staff to attend to the table. Furthermore these apps are fully integrated with the pointOne EPOS system, and integrated with card payments, Paypal and Apple Pay.

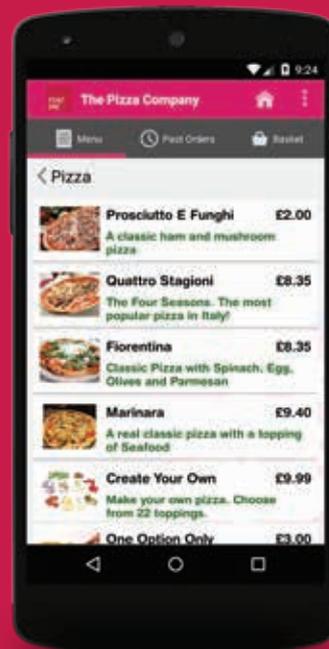

The result is more orders, faster turnaround time, easier payment reconciliation at the end of the night and happy customers.

We also have Online Ordering apps for your customers so they can pre-order for either collection or delivery. They are designed to meet the specific needs of both QSR with peak traffic at lunch time, or restaurants who offer takeaway or delivery services.

We also have new apps in development for head office reporting of key KPI data by site to always keep you informed on the move via your smartphone.

Key Features of our Apps include:

- ✓ Android and iOS compatible Apps
- ✓ Integrated with Apple Pay, Paypal and traditional card payments
- ✓ Solutions for pre-ordering online on the App for order collection and Delivery (for QSR)
- ✓ Customer facing app to enable customer to order another round via their smartphone and a QR code
- ✓ Features to enable customer to view, split and pay for their bill in real time without engaging the staff

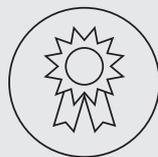

Our System Tools

Whether your operation is a 50 cover café, or a 50 site group, we have the products and the skills to ensure you get both the system you require and the support you need. Here are just a few ways your business can benefit from using pointOne EPoS.

Enterprise Stock Control

What you sell, buy, and waste has a big impact on your bottom line. We operate, real time, 'first in first out' stock control for 'actual' GP tracking and reporting, multi supply unit and price for single ingredients, multi department management and cost/ revenue allocation.

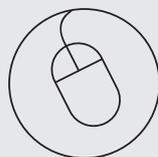

Loyalty & Marketing

pointOne EPoS Loyalty has been designed to help our clients ensure that their customers return for more! By offering a loyalty system to your customers you are taking advantage of one of the best marketing tools used by the biggest retailers today.

Head Office Management

pointOne EPoS Head Office provides owner managers or corporate head offices with the ability to view, consolidate, and manage each of their sites remotely, either singularly, or as a group - and all in real time, with no more overnight polling.

Online Ordering

Enables your customers to order and pay via your website for delivery or in-store collection. Coupled with a smartphone app that can be customised to your business, online ordering offers a unique way not only to reduce the pain in processing orders, but greatly increase the customer experience.

Tableside Ordering

Our Android Tablet EPoS solution is a cutting edge and class leading solution developed for the casual dining restaurant or similar operation to take orders at the tableside. All common EPoS functions are available and offer the benefit of maximising revenues in pub gardens and table service restaurants.

Kitchen Management

pointOne's new Kitchen Manager delivers clear concise instructions to kitchen staff via a simple easy to view wall mounted touch screen, that displays multiple orders. The screens can be ceiling or wall mounted via space poles.

Chip & Pin

We supply a fully integrated Chip & Pin solution for use, both on the restaurant floor or at the point of sale in the bar. Features such as bill lodging enable you to reduce errors and speed up the payment process.

Apps

We are developing a number of Apps specifically designed to meet the needs of the hospitality industry.

pointOne is a UK company that is committed to developing, building and supporting, technically advanced, proven, robust EPoS solutions that you can trust.
